Hi Dad
I hope you are well. Click on the picture below to see our new house. You know that the house is quite old? Well, we've already started making changes so that it looks better. We're so excited! Last week I repaired the gate and Lucy cleaned the front door. It was green but I've painted it red now. The garage is OK. We're not going to do anything to that. But we are going to change the horrible brown colour of the windows. Lucy is going to paint them blue tomorrow. We are very busy! The next big job is the roof. Can you help us to repair it?
