What job is for me?

I'm thinking about what job I want to do when I *grow* up. My mum says there are two really important things to remember. The first one is that the job I _____ should make me happy. 'You have to love your job because you're going to _____ a lot of your life at work,' she says. The second thing is that you don't have to be _____ at everything you do, but you should try as hard as you can.

There are two jobs that I'm interested in, but I can't decide which I prefer. Do I want to fly planes around the world like my mum, who's a _____ ? Or do I want to work as a _____ because I love cars and fixing things? But I also love travelling. I think I'll have to try both jobs!
