

1 Study the map and decide which route you would follow from Cape Town to Stanford.

1.1 Draw up a table with three columns and in the first column make a list of all the towns you will pass through.

1.2 In the second column, give the route number(s) that you drive along between the towns.

1.3 Measure the distances between the towns, starting in Cape Town and ending in Stanford and write the answers in the third column. All answers must be in kilometres.

1.4 Calculate the total distance from Cape Town to Stanford.

List of towns pass through	Route number for each town	Measure of distance between towns

Total distance calculation between Cape Town and Stanford is
