Name_____#____Week 4-Monday Big 4

1. The Commutative Property means that the order of the numbers being added together does not change the outcome.

4 + 2 = ____ + 4

5 + 3 + 6 = 5 + 6 + ____

36 + 54 = 54 + _____

2. Round the following numbers to the nearest 10 and 100

	10	100
52		
821		
5,494		

3. Solve for the missing addend.

____ + 64 = 80

36 + ____ = 70

452 + ____ = 500

4. 4. You can group addends different ways, and the sum will not change. Addends are grouped with parenthesis. (You add the part in parenthesis first.)

(9 + 5) + 1 = 9 + (__ + 1)

7 + (6 + 5) = (____ + 6) + 5

(3 + 8) + 35 = 3 + (__ + 35)
