

PARALLEL, PERPENDICULAR AND INTERSECTING LINES

Identify each pair of lines as either parallel lines, perpendicular lines or intersecting lines.

1		AB is to CD
2		YZ is to WX
3		MN is at OP
4		GH is to EF
5		UV is to ST
6		RS is at PQ

PARALLEL, PERPENDICULAR AND INTERSECTING LINES

Study each shape and name the pair of lines that is either parallel or perpendicular lines.

1	SQUARE 	a. JK is parallel to b. KM is parallel to c. JL is perpendicular to and LM. d. LM is perpendicular to and MK.
2	RECTANGLE 	e. FE is parallel to f. DE is parallel to g. CD is perpendicular to CF and h. CF is perpendicular to FE and
