# OUR PASSION FOR CHOCOLATE

Some experts believe that the reason for our **(1)** _____ [OBSESS] with chocolate lies in its chemical content, but most tend to put its **(2)** _____ [ATTRACT] down to psychology. It has not been **(3)** _____ [SCIENCE] proven that the chemical substances contained in chocolate lead to our need for it. The **(4)** _____ [SWEET], the flavour, texture and calories make it **(5)** _____ [DESIRE]**.** Some people are born with a **(6)** _____ [PREFER] for sweet things and chocolate **(7)** _____ [READY] meets this need because of its **(8)** _____ [AVAILABLE] in every corner of the world. We grow to associate it with rewards, **(9)** _____ [GIVE] and love. We also use it for **(10)** _____ [EMOTION] comfort. Most bars contain only a small percentage of cocoa solids. Those who are fans of "real chocolate", which can contain up to 70% claim it is a much **(11)** _____ [HEALTH] option, and less **(12)** _____ [ADDICT].
