

Nama :

Kelas :

5.1C Menulis ayat matematik secara tolak berturut-turut

Arahan : Pilih ayat matematik bahagi yang betul.

$$10 \div 2 = \square$$

$$\begin{array}{r} 10 \\ - 2 \end{array} \rightarrow \square$$

$$\begin{array}{r} 10 \\ - 2 \end{array} \rightarrow \square$$

$$\begin{array}{r} 10 \\ - 2 \end{array} \rightarrow \square$$

$$\begin{array}{r} 10 \\ - 2 \end{array} \rightarrow \square$$

$$\begin{array}{r} 10 \\ - 2 \end{array} \rightarrow \square$$

$$14 \div 2 = \square$$

$$\begin{array}{r} 14 \\ - 2 \end{array} \rightarrow \square$$

$$\begin{array}{r} 14 \\ - 2 \end{array} \rightarrow \square$$

$$\begin{array}{r} 14 \\ - 2 \end{array} \rightarrow \square$$

$$\begin{array}{r} 14 \\ - 2 \end{array} \rightarrow \square$$

$$\begin{array}{r} 14 \\ - 2 \end{array} \rightarrow \square$$

$$\begin{array}{r} 14 \\ - 2 \end{array} \rightarrow \square$$

$$\begin{array}{r} 14 \\ - 2 \end{array} \rightarrow \square$$

$$5 \div 1 = \square$$

$$\begin{array}{r} 5 \\ - 1 \end{array} \rightarrow \square$$

$$\begin{array}{r} 5 \\ - 1 \end{array} \rightarrow \square$$

$$\begin{array}{r} 5 \\ - 1 \end{array} \rightarrow \square$$

$$\begin{array}{r} 5 \\ - 1 \end{array} \rightarrow \square$$

$$\begin{array}{r} 5 \\ - 1 \end{array} \rightarrow \square$$

$$15 \div 5 = \square$$

$$\begin{array}{r} 15 \\ - 5 \end{array} \rightarrow \square$$

$$\begin{array}{r} 15 \\ - 5 \end{array} \rightarrow \square$$

$$\begin{array}{r} 15 \\ - 5 \end{array} \rightarrow \square$$

$$40 \div 5 = \square$$

$$\begin{array}{r} 40 \\ - 5 \end{array} \rightarrow \square$$

$$\begin{array}{r} - 5 \end{array} \rightarrow \square$$

$$\begin{array}{r} - 5 \end{array} \rightarrow \square$$

$$\begin{array}{r} - 5 \end{array} \rightarrow \square$$

$$\begin{array}{r} - 5 \end{array} \rightarrow \square$$

$$\begin{array}{r} - 5 \end{array} \rightarrow \square$$

$$\begin{array}{r} - 5 \end{array} \rightarrow \square$$

$$\begin{array}{r} - 5 \end{array} \rightarrow \square$$

$$8 \div 4 = \square$$

$$\begin{array}{r} 8 \\ - 4 \end{array} \rightarrow \square$$

$$\begin{array}{r} - 4 \end{array} \rightarrow \square$$

$$60 \div 10 = \square$$

$$\begin{array}{r} 60 \\ - 10 \end{array} \rightarrow \square$$

$$\begin{array}{r} - 10 \end{array} \rightarrow \square$$

$$\begin{array}{r} - 10 \end{array} \rightarrow \square$$

$$\begin{array}{r} - 10 \end{array} \rightarrow \square$$

$$\begin{array}{r} - 10 \end{array} \rightarrow \square$$

$$\begin{array}{r} - 10 \end{array} \rightarrow \square$$

$$16 \div 4 = \square$$

$$\begin{array}{r} 16 \\ - 4 \end{array} \rightarrow \square$$

$$\begin{array}{r} - 4 \end{array} \rightarrow \square$$

$$\begin{array}{r} - 4 \end{array} \rightarrow \square$$

$$\begin{array}{r} - 4 \end{array} \rightarrow \square$$
