Complete the text with words from the diagram. Some are used more than once.

On a front-wheel drive vehicle, the (1) engine is at the front of the car, between the two wheels. Two (2) _____ drive the front wheels.

The (3) _____ is at the rear of the car, between the rear wheels and below the passenger seat. It holds fuel for the engine. A (4) _____ carries fuel below the car to the (5) _____ at the front. The (6) _____ on the instrument panel shows the quantity of fuel in the (7) _____.

Each wheel of the car is fitted with (8) _____. When the footbrake is pressed, the (9) _____ slow the moving car. At rest, the handbrake stops the car from moving.

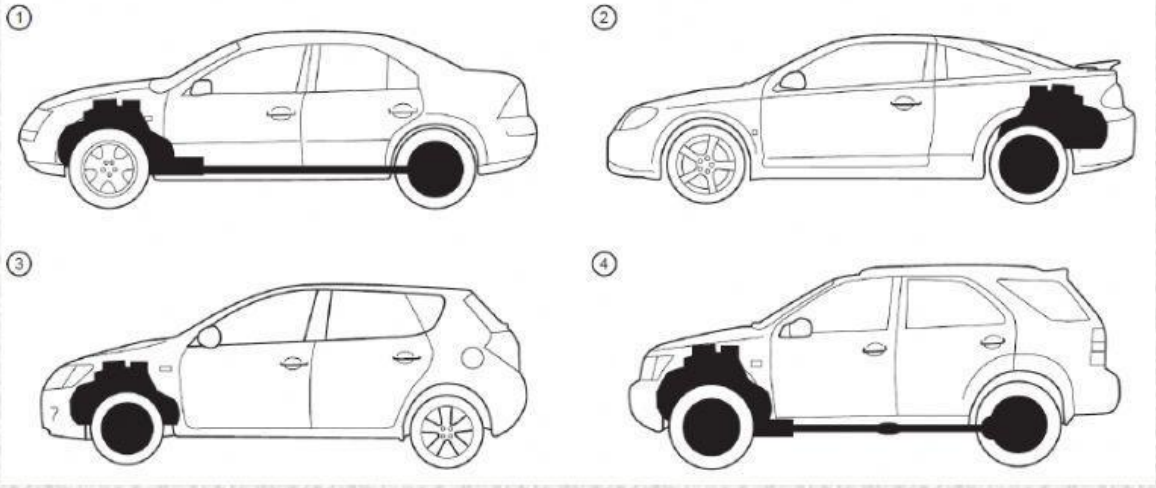

The car's exhaust system has a (10) _____ and an (11) _____. The function of the (12) _____ is to reduce the noise from the engine. The (13) _____ carries exhaust gases from the engine under the car between the two rear wheels to the exit point at the rear.

Match the parts with their functions.

1 silencer ___	a) slow and stop the wheels of the car
2 fuel gauge ___	b) carries fuel to the engine from the fuel tank
3 engine ___	c) measures the fuel in the tank
4 pipeline ___	d) holds the fuel for the car
5 brakes ___	e) carries the exhaust gases to the rear of the car
6 drive shafts ___	f) makes the car quieter
7 fuel tank ___	g) turns the drive shaft
8 exhaust pipe ___	h) turn the wheels of the car

LIVEWORKSHEETS

Complete the descriptions of the four vehicles.

1 The engine is at the front and drives the rear wheels.
2 The engine is at the _____ and drives the _____ wheels.
3 The engine is at the _____ and drives the _____ wheels.
4 The engine is at the _____ and drives the _____ wheels.

Look at the diagrams in 1 and 4 and underline the correct words.

1 On a 4WD, the drive shaft to the rear wheels is *to/in* the middle of the car.
2 The pipeline for the fuel is *above/below* the floor.
3 The fuel tank is *on/at* the back of the car.
4 The chassis is *at/to* the bottom of the car.
5 The body is *below/above* the chassis.
6 The fuel gauge is *in/at* the middle of the instrument panel.
7 In the UK, the driver's seat is *on/at* the right, looking forwards.
8 In the UK, the handbrake is *to/at* the left of the driver.
9 The exhaust pipe for exhaust gases is *below/above* the floor.
10 The drive shafts connect the wheels *to/on* the engine.
