Diana TT

3. Complete the sentences with the words below. Listen the audio again and check if you were right.

melting

bodies

hunt

Global warming

carnivores

ice

Canada

air

Polar bears live in places like the Arctic, (1) _____, Alaska, Russia and Norway. They survive in the coldest areas because their (2) _____ protect them from the freezing (3) _____ and water. They are the largest (4) _____ on Earth. They eat seals, and they depend on the (5) _____ to hunt for food.

Because of (6) _____, the ice in the sea is (7) _____ earlier than it used to and forming too late. For this reason, polar bears have less time to (8) _____ and it's difficult for them to survive.

SPEAKING:

4. Create a poster giving solutions for the environment. Then send a short explanation to your teacher.

Tips:

- 1) Write 3 solutions and paste pictures relate to them.
- 2) In order to help your pronunciation, you can use google translator
- 3) Record a short explanation, then send to your teacher by WhatsApp.

Example:

"Hello teacher, my name is, today I am going to give three solutions for the environment:
