

Name: _____ Grade: _____

1. Given the value of the variables, fill in the blanks using Addition property.

1. If $s = 18$ then, $s + 4 = \underline{18 + 4}$
2. If $m = 52$ then $m + 21 = \underline{\hspace{2cm}}$
3. If $a = 76$ then, $\underline{\hspace{2cm}} = 76 + 7$
4. If $r = 24$ then, $\underline{\hspace{2cm}} = 24 + 14$
5. If $(t - 10) = 85$ then, $(t - 10) + 23 = \underline{\hspace{2cm}}$

2. Given the value of the variables, fill in the blanks using Addition property.

1. If $b = 13$ then, $b - 8 = \underline{13 - 8}$
2. If $r = 37$ then $r - 18 = \underline{\hspace{2cm}}$
3. If $a = 26$ then, $\underline{\hspace{2cm}} = 26 - 21$
4. If $i = 58$ then, $\underline{\hspace{2cm}} = 58 - 7$
5. If $(n - 7) = 63$ then, $\underline{\hspace{2cm}} = 63 - 9$
