

PHYSICS STD 10 UNIT 1 TOPIC : DISCHARGE LAMP WORKSHEET:1

Working Principle of Discharge Lamp

Drag and drop the following statements in the correct order into the boxes. Check your score .

1.

2.

3.

4.

5.

6.

Glass tube with gas and two electrode

High p d is applied

Gas molecules get excited

Electrons in gaseous atoms get excited

Electrons comes back
to original state

Stored energy is emitted as light
