

"Me Without You"

It's just you and me
And there's no one around
Feel like I'm 1_____ by a thread
It's a long way down
I've been trying to 2_____
But I'm fighting for air
I'm at an all time low
With no place to go
But you're always there
When everything falls apart
And it seems like the world
Is crashing at my feet
You like me the best
When I'm a mess
When I'm my own worst enemy
You make me feel beautiful
(beautiful)
When I have nothing left to prove
And I can't imagine
How I'd make it through
There's no me without you
No me without you, no no
You hear what I say
When I don't say a word
You are my 3_____ sun
You're the place I run
You know how it hurts
When everything falls apart
When everything falls apart
And it seems like the world
Is crashing at my feet
You like me the best
When I'm a mess
When I'm my own worst enemy
You make me feel beautiful
(beautiful)
When I have nothing left to prove
And I can't imagine

How I'd make it through
There's no me without you
No me without you
There's no me without you
No me without you
And when you say 'baby, it's
gonna get better'
I 4_____ you
And I wish that somehow I could
see me
The way you do
With my 5_____
You think I'm perfect
When it's not easy
You make it worth it
When everything falls apart
And it seems like the world
Is crashing at my feet
You like me the best
When I'm a mess
When I'm my own worst enemy
You make me feel beautiful
(beautiful)
When I have nothing left to prove
And I can't imagine
How I'd make it through
There's no me without you
No me without you, no no
No me without you (no me
without you)
No me without you, no no (no me
without you), no
