

BECAUSE

(Clark Dave Clark Five)

Read the reported statements, and write on the left lines the direct speech. Listen to the song to check.

He said it was right that he should care about her,
And try to make her happy when she was blue
He said it was right, it was right to feel the way he did
Because, because he loved her.

He said it was wrong to say he didn't think of her
because when she said those things,
she knew that that made him blue.

he asked her to give him one kiss and he would be happy
just, just to be with her
he asked her to give him, to give him a chance to be near her
because, because he loved her.
