

Let's help Ranger Dave finish these tasks:

Choose the correct number sentence for the word problems.

There are 43 crocodiles lying on the riverbed.

20 of them went into the river. How many crocodiles are still on the riverbed?

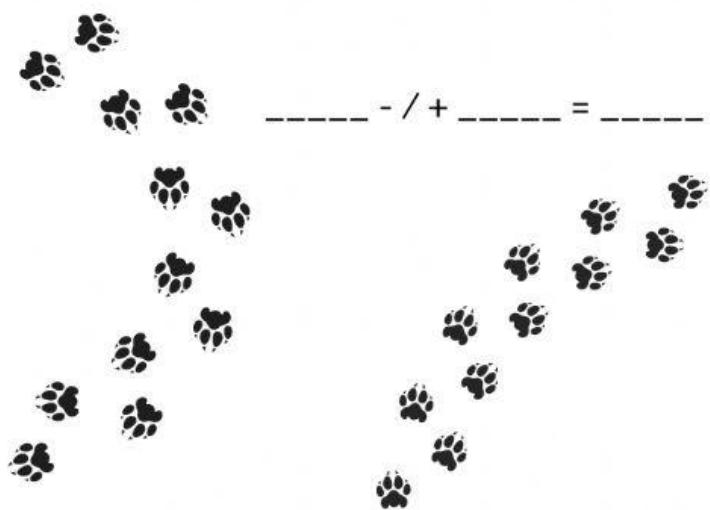

$$\underline{\quad} - / + \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} - / + \underline{\quad} = \underline{\quad}$$

Sally the snake was 35 cm a year ago. She has grown 40 cm since then. How long is she now?

There are 66 thorn trees on the farm. The giraffes eat the leaves of 50 of them. How many trees still have their leaves?

Ranger Dave is following 45 sets of animal prints that are heading to the watering hole. He sees 30 more sets of prints heading in the opposite direction. How many sets of prints does he see?

$$\underline{\quad} - / + \underline{\quad} = \underline{\quad}$$
