Number Design

Red 8 or 40; blue 10 or 28; brown 35; white 20;
yellow 36 or 9; green 44 or 12; orange 18.

The worksheet features a central circle with eight segments, each containing a math problem. The problems are as follows:

- Top-left segment: $17 + 23 = \square$
- Top-right segment: $16 \div 2 = \square$
- Middle-left segment: $20 \div 2 = \square$
- Middle-right segment: $2 \times 6 = \square$
- Bottom-left segment: $50 - 41 = \square$
- Bottom-right segment: $48 - 12 = \square$
- Left segment: $18 + 17 = \square$
- Right segment: $50 - 6 = \square$
- Top segment: $38 - 10 = \square$
- Bottom segment: $50 - 30 = \square$
- Far-left segment: $50 - 32 = \square$
- Far-right segment: $2 \times 9 = \square$
- Far-bottom-left segment: $2 \times 10 = \square$
- Far-bottom-right segment: $44 - 9 = \square$
- Far-top-left segment: $18 \div 2 = \square$
- Far-top-right segment: $27 + 17 = \square$
- Far-middle-left segment: $50 - 22 = \square$
- Far-middle-right segment: $19 + 25 = \square$
- Far-bottom-left segment: $4 \times 2 = \square$
- Far-bottom-right segment: $18 + 18 = \square$
- Far-top-left segment: $11 + 29 = \square$

The central circle contains the following problems:

- Top: $46 - 38 = \square$
- Right: $14 + 22 = \square$
- Bottom: $16 + 12 = \square$
- Left: $18 - 9 = \square$
