

We were so close yet so far away
I_____ reach out, you_____ be gone
Moments that still take my breath away
There's so much more to life than loving you
You don't need me, no...

Chorus
I can't wait all my life, on a street of broken dreams
It _____ you my love (where are you now)
Oh I... still wonder if you remember the night
It _____ you

Time washes over, memories
I can't look back no more
Change has forsaken, our promises
There's someone else for you to hold again
So please stop your crying

Chorus

Remember, remember, girl I remember
I... can't wait all my life, on a street of broken dreams
It _____ you my love (where are you now)
Oh I... still wonder if you remember the night
It _____ you (where are you now)
_____ you my love (where are you now)
It _____ you my love, (where are you now)
remember... remember...remember
