Measuring digital development

FACTS AND FIGURES 2019

Discuss before you watch:

What is "digital illiteracy"?

Do you know any person who is a digital illiterate? Do you think it is a common reality in society?

Has this changed over the last few years? How?

Watch the video and complete the information.

1- Just over _____ of people globally are now online.

2- A _____ 3.6 billion remain unconnected.

3- In the world's 47 poorest countries, over _____ of people still don't access the _____ power of the Net.

4- In almost _____ of all countries, more men than women use the internet.

5- In _____ surveyed, substantially more men have a mobile phone than women.

Think

If mobile broadband networks cover 93% of the world's people, why are there still so many people not using them?

Who have the worst of the conditions and why?

What does the speaker mean by "the key take-away is clear"?
