### Mathematics: Addition: Story Problems

Words to help you with addition: sum, total, in all, altogether, increase, combined, both, plus, join

Read each story problem. Write the number sentence then solve. An example has been completed for you.

**Example:** There are 7 boys and 9 girls in Mrs. McPhee's class. What is the total?  $7+9=16$

1. Haley read 4 books. Matt read 5 books. How many books did they read in all?
2. John has 6 pens and Jesse has 7. How many pens are there altogether?
3. Jack has 8 stamps. David gave him 8 more. What is the total amount of stamps Jack now has?
4. Lauren saw 3 fish. She saw 9 more. How many fish did Lauren see in all?
5. Noah has 2 hats and Paul has 5. Find the sum.
