SEPARATION OF MIXTURES

1. Drag the name to the correct picture:

Filtration Evaporation Distillation Decantation

2. Join the method to the type of mixture:

Filtration	Homogeneous mixtures
Evaporation	
Distillation	Heterogeneous mixtures
Decantation	

3. Which separation method is being used?

- Evaporation
- Distillation
- Decantation
- Filtration

LIVEWORKSHEETS

4. Think about the best way to separate these mixtures:

⇒ Salt and water:

⇒ Dust and air:

⇒ Oil and water:

⇒ Alcohol and water:

⇒ Pebbles and water:

⇒ Water and ink:
