# SEPARATION OF MIXTURES

1. Drag the name to the correct picture:
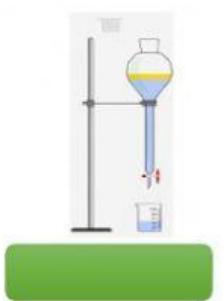

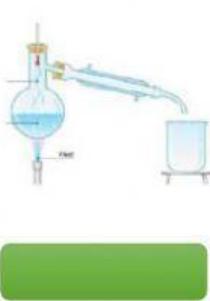

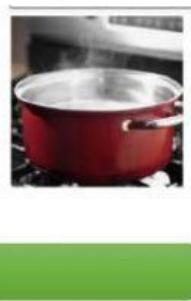

Filtration   Evaporation   Distillation   Decantation

2. Join the method to the type of mixture:

Filtration

Evaporation

Distillation

Decantation

Homogeneous mixtures

Heterogeneous mixtures

3. Which separation method is being used?

- Evaporation

- Distillation

- Decantation

- Filtration

4. Think about the best way to separate these mixtures:

⇒ Salt and water:

⇒ Dust and air:

⇒ Oil and water:

⇒ Alcohol and water:

⇒ Pebbles and water:

⇒ Water and ink:
