

Colours & Lights – Goldfish

Listen to the song and complete the gaps:

Lucid dreams, late at
(1).....
Fire's on when I look
in your (2)
Life was all
(3)..... and
white
But then you
(4).....bringing
colours and light
I would stand by your
(5)
Like (6).....moment
you were there in my
mind
Hear me out, don't

(7).....twice
Now take me back
into the colours and
(8)
Colours and light
Colours and light
Now take (9)
back into the colours
and light
In (10)crazy
life
You brought
calmness I could
never get (11)
.....
When things turn

black and white
We'll stick together
everything will (12)
.....right
Here I stand by your
side
And every moment
you (13)
.....there in my
mind
Here me shout into
the night
Now take me back
into the colours and
light

CHORUS

You got in my (14)
..... you helped
me stay sane
You rescued my (15)
.....now I'm
back again
You got in my brain,
you helped me stay
sane
You rescued my mind
now I'm back again
You got in my brain,

you helped me stay
sane
You rescued my mind
now I'm back again
(back again)
You got in my brain,
you helped me stay
sane
You (16)my
mind now I'm back
again (oh back (17)
.....)
