

Solid State Drive (SDD)

Activity 7

Sultan and Mariam are learning about HDDs and SSDs.

Sultan is buying a game. The game requires at least 2GB free memory on the secondary storage and 1GB free memory on primary storage.

He has less than 2GB space left on his hard disk, but he has 8GB of RAM.

Will the game work? Put a tick in the correct box ✓.

	Yes	No
The game will work	☐	☐

Explain your answer below.
