

Year: 1
Topic: Numbers up to 100
Learning Objective: Students should be able to count in tens and ones up to 100.

How many are there?

1.	 A visual representation of 33 bowling pins. There are five groups of ten pins each, arranged in a triangular pattern (4 in the back row, 3 in the second, 2 in the third, and 1 in the front). There are also three individual pins standing alone to the right.	
2.	 A visual representation of 70 colorful blocks. There are seven identical horizontal rows, each containing 10 blocks of different colors: blue, yellow, red, orange, white, brown, green, dark blue, red, and tan. Below the rows are five individual blocks of the same colors: tan, red, green, yellow, and white.
