production possibilities curve
scarcity
trade off
underutilization
wants

(1) _____ is the fundamental economic problem. It arises because human (2) _____ are limitless, while resources are limited. It affects what a (3) _____ buys and what a (4) _____ makes. It affects what is produced, how it is produced, and who gets what is produced. It affects how the four (5) _____ are put to use. Since people cannot have everything they want, they have to make choices. Every choice, however, involves a (6) _____, something you have to give up to get what you want. When making an economic decision, you need to consider the (7) _____, the value of the thing you gave up. Economists often use (8) _____, simplified representations of reality, to clarify concepts. Economists use such tools in (9) _____, the study of the economic behavior of individual persons, families, and businesses, and in (10) _____, the study of the economy as a whole. One useful model, the (11) _____, shows the maximum amount of goods that an economy can produce. It also shows (12) _____, when not all resources are put to full use.
