### How to Make Mini Plant Pots

#### Materials:

- 1 egg carton
- Four seed packets
- Some potting soil
- Water

#### Equipments:

- Scissors
- A black marker
- A spoon

#### Steps:

- 1) Cut off the top of the egg carton and leave the bottom part.
- 2) Take four cups from the egg carton and smoothen the edges by cutting them with scissors.
- 3) Mark each pot with the name of each plant.
- 4) Add a few scoops of potting soil to each of the egg cups.
- 5) Place a few plant seeds in the labelled pot.
- 6) Set all the pots in a large plate. Place them near the window to get enough sunlight.
- 7) Water the plants sufficiently according to the instruction found in the seed packages.
- 8) Move the plants to bigger pots or to the garden when they grow too big to fit the pots. The plants can be directly planted in the garden without getting rid of the egg cups because they are decomposable.
