

## Recording Data: Tables, Graphs and Charts

1. Look at the graphs below. Select the correct name for each one.

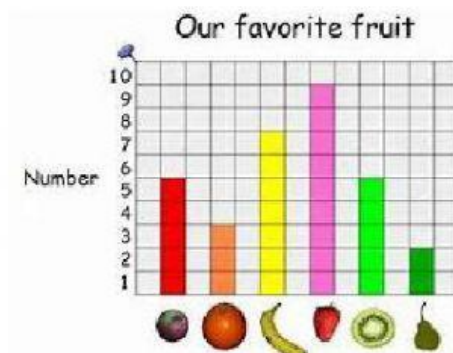

| Table | Chart |
|-------|-------|
|-------|-------|

| Food Items                                                                                      | Tally Marks |
|-------------------------------------------------------------------------------------------------|-------------|
|  Burger        |             |
|  Pizza         |             |
|  Fried Chicken |             |
|  Hot Dog       |             |

2. Look at the charts, graphs, and tables. Answer the questions.

- How many kids like bananas? \_\_\_\_\_
- Which fruit do kids like least? \_\_\_\_\_
- Which fruit do kids like more? \_\_\_\_\_

- How many people likes hamburgers? \_\_\_\_\_
- How many people likes fried chicken? \_\_\_\_\_
- Which food do people like least? \_\_\_\_\_

| Food Items                                                                                        | Tally Marks |
|---------------------------------------------------------------------------------------------------|-------------|
|  Burger        |             |
|  Pizza         |             |
|  Fried Chicken |             |
|  Hot Dog       |             |
