Weather and Climate

Watch the video below. Then write the notes about weather and climate. Then complete the worksheets in your workbook on weather and climate.

Write these notes in your notebook.

The Bahamas has a Sub-Tropical climate. It does not snow in our country. Our hurricane season start in June and ends in November.

Weather refers to short-term changes in the atmosphere. Climate describes what the weather is like over a long period of time. Different regions can have different climates. Weather tells you what to wear each day. Climate tells you what types of clothes to have in your closet.

Weather Instruments

Rain Guage – this instrument is used to measure the amount of rainfall.

Wind Vane – this instrument is used to measure the direction of the wind at any time.

Anemometer – this instrument is used to measure the direction and speed of the wind.

Barometer – this instrument is used to measure air pressure.

Thermometer – this instrument is used to measure the high and low outdoor temperatures in degrees Fahrenheit and degrees Celsius.
