

Example:

This weekend, my family *is going to have* a small party at home for my Dad's birthday. My mom is going to wake up early and going to buy some fresh food at the market near my house. My sister and I are going to help mom to prepare the food. My brother is going to make a birthday cake for Dad, he is very good at making cakes. My grandparents love singing so they are going to sing. Everyone is going to have fun!
