- Oh, I would love to, thanks you.

II. – Read the following text quickly and choose the best title for it. (2 pts)

- a) Brain and love
- b) The hemispheres of human brain.
- c) Facts about the human brain

The human brain weights around just three pounds. It is pink, wrinkled organ and looks like the inside of a walnut. It is located in the human head. The human brain is about three times larger in size than that of mammals of the same size. The scientists are trying to understand more about the human brain as it is a very complex organ.

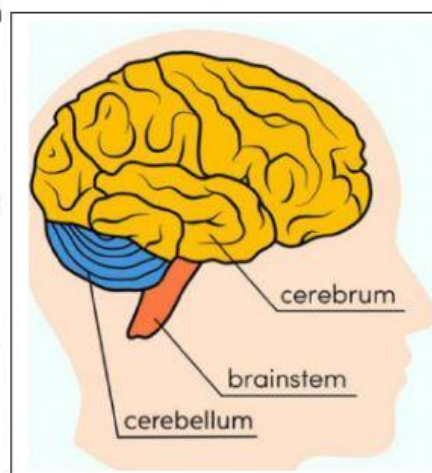

The human brain is the center of the nervous system. It helps in controlling our thoughts, memories, movements, and decisions. It is the boss of the human body and controls the entire human body. The human brain has billions of small cells known as neurons. These neurons send and received information throughout the body.

The human brain is divided into these three main parts:

1. - Cerebrum: It is the larger part of the brain. This part of the brain helps us in moving around, thinking, speaking and learning.

2. - Cerebellum: This part of the brain is located just under the cerebrum. This part of the brain helps you sit straight and maintain your balance while you walk and run. It helps in muscle movements across the body.

3.- Brain stem: This thin and small part of the brain connects both the cerebellum and the cerebrum to the spinal cord present in your back. It helps in many important functions like coughing, sneezing, digestion, and maintaining our body temperature and heartbeat.

Vocabulary:

- Brainstem: tronco encefálico

- Wrinkled: arrugado (a)

-Walnut: nuez

-Coughing: toser

- Sneezing: estornudar

-Back: espalda

-Boss: patrón/patrona

-Pounds: libras

-Look like: luce (a la vista)

II.- Match the name of the part of the brain with its description by drawing a line: (2 pts)

Cerebrum

Cerebellum

Brain stem

The part that connects to the spinal cord

The largest part of the brain

The part that helps you sit straight

III.- Read the again and answer "TRUE" or "FALSE" according to the text information. (10 pts)
