

Όνομα: _____

«Αφαίρεση με αφαιρετέο μεγαλύτερο αριθμό»

1. Από την πρόσθεση βρίσκω δύο αφαιρέσεις:

$$\begin{array}{l} 4 + 3 = 7 \\ \swarrow \searrow \\ 7 - 4 = 3 \\ 7 - 3 = 4 \end{array}$$

$$\begin{array}{l} 6 + 2 = \dots \\ \swarrow \searrow \\ \dots \\ \dots \end{array}$$

$$\begin{array}{l} 5 + 3 = \dots \\ \swarrow \searrow \\ \dots \\ \dots \end{array}$$

$$\begin{array}{l} 7 + 2 = \dots \\ \swarrow \searrow \\ \dots \\ \dots \end{array}$$

$$\begin{array}{l} 5 + 4 = \dots \\ \swarrow \searrow \\ \dots \\ \dots \end{array}$$

$$\begin{array}{l} 7 + 3 = \dots \\ \swarrow \searrow \\ \dots \\ \dots \end{array}$$

2. Κάνω το αντίθετο: από τις δύο αφαιρέσεις βρίσκω μια πρόσθεση:

$$\begin{array}{l} 5 - 3 = 2 \\ \swarrow \searrow \\ 2 + 3 = 5 \\ 5 - 2 = 3 \end{array}$$

$$\begin{array}{l} 6 - 4 = \dots \\ \swarrow \searrow \\ \dots \\ 6 - 2 = \dots \end{array}$$

$$\begin{array}{l} 7 - 2 = \dots \\ \swarrow \searrow \\ \dots \\ 7 - 5 = \dots \end{array}$$

$$\begin{array}{l} 7 - 6 = \dots \\ \swarrow \searrow \\ \dots \\ 7 - 1 = \dots \end{array}$$

3. Συμπληρώνω όπως στο παράδειγμα (διαγράφω όσα αφαιρώ):

					1	2	3	4	5	6	7	8	9	10
9	-	5	=		●	●	●	●	●	●	●	●	●	
9	-	7	=											
8	-	5	=											
8	-	7	=											
7	-	5	=											
10	-	6	=											
10	-	8	=											

4. Κάνω τις πράξεις:

6	-	3	=		8	-	7	=		7	-	6	=	
6	-	5	=		8	-	5	=		7	-	0	=	
6	-	2	=		8	-	8	=		9	-	4	=	
6	-	1	=		8	-	0	=		9	-	6	=	
6	-	4	=		7	-	3	=		9	-	8	=	
6	-	6	=		7	-	5	=		9	-	5	=	
8	-	4	=		7	-	7	=		9	-	7	=	
8	-	6	=		7	-	4	=		9	-	9	=
