

Hugh W. Campbell Primary  
Grade 3  
Science: Living and Non-Living Things

A. Select the Living things in the box below.

B. True or False

Read the following instructions. Select **TRUE** if it is correct. Select **FALSE** if it is incorrect.

- |                                                                 |      |       |
|-----------------------------------------------------------------|------|-------|
| 1. Living things need air, water and food to live.              | TRUE | FALSE |
| 2. Non-living things can make more like themselves (reproduce). | TRUE | FALSE |
| 3. Humans are living things.                                    | TRUE | FALSE |
