

3. Subtract.

Example

\$30 from

$$\underline{\$55} - \underline{\$30} = \underline{\$25}$$

(a) \$27 from

$$\underline{\$} - \underline{\$} = \underline{\$}$$

(b) \$86 from

$$\underline{\$} - \underline{\$} = \underline{\$}$$

(c) \$9 from

$$\underline{\$} - \underline{\$} = \underline{\$}$$

4. The children lose some of the money they have saved!  
Help them find how much money they are left with.

Before	Hilang They Lost	After
(a)		
(b)		
(c)		
(d)		

(e) How much more does lose than ? \$

(f) How much less does lose than ? \$
