Hello everyone! I love wild animals! Today I am showing you my favorite animals...

  - One of my favorite animals is the panda. Pandas live in Asia. They are black and white. They can climb trees. They love eating bamboo leaves. This panda isn't sleeping now. It is eating!

- **Parrots:**
  - Parrots are very intelligent and colorful birds! There are parrots in Australia, Africa, North and South America. Some parrots can talk. This parrot is talking! It isn't flying.

- **Bats:**
  - I think bats are cute. They eat insects and fruit. They aren't birds but they can fly too. They usually fly and look for food at night. This bat isn't looking for food now. It is flying.
