Using a Protractor

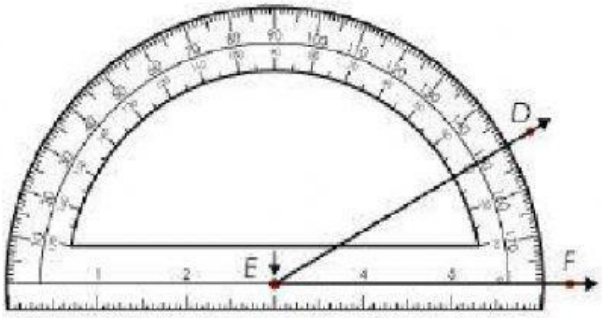

The protractor's arrow and pen hole is placed on the angle's vertex. The 0° line is placed over one side of the angle. Read the measure where the other leg of the angle intersects the protractor.

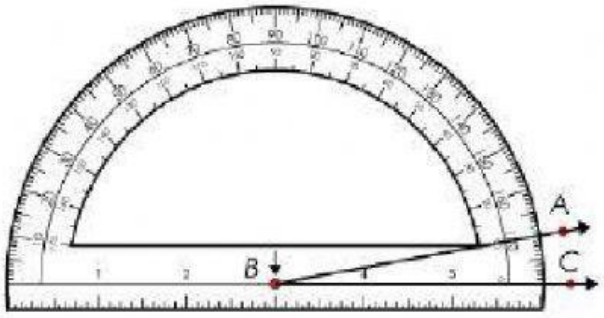

∠PQR measures 70°.

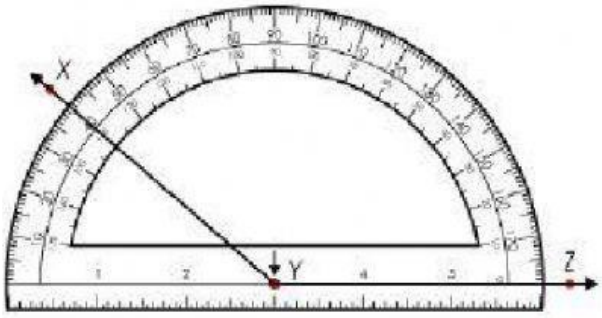

∠LMN = _____

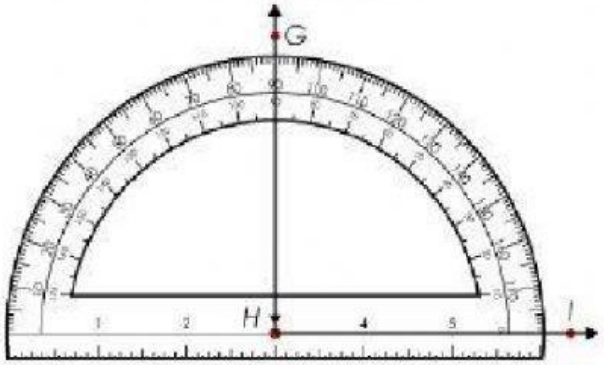

∠DEF = _____

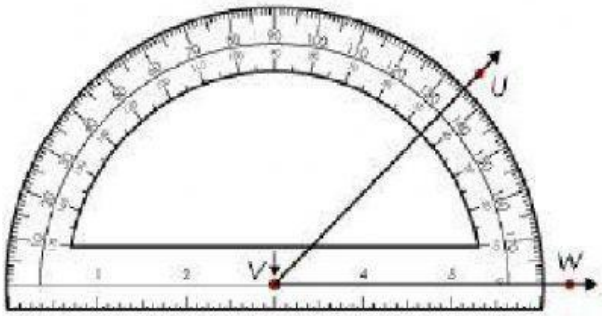

∠ABC = _____

∠XYZ = _____

∠GHI = _____

∠UVW = _____
