

Examine **Figure 1** which shows a landscape that has been shaped by different physical processes including erosion, transportation and deposition by rivers and the sea. Answer each of the following questions.

| Number | Feature  |
|--------|----------|
| 1      |          |
| 2      |          |
| 3      |          |
| 4      | Headland |
| 5      |          |

- Explain in detail why you would choose to settle at this site.

[illegible]
