23. Ionic Bonds and Compounds: Formation of Ionic Compounds

Refer to the periodic table. Classify the elements by the most likely charge of the ion the element will form.

Ion with 2– Charge

Ion with 1– Charge

Ion with 1+ Charge

Ion with 2+ Charge

potassium (K) | selenium (Se) | oxygen (O) | beryllium (Be) | fluorine (F) | magnesium (Mg)

cesium (Cs) | bromine (Br)
