Johnson taken to intensive care after virus symptoms worsen

Rapid handed control of government on day UK death toll exceeds 5,000

By Simon Munnery
Last updated: 10:45pm

Boris Johnson has been admitted to intensive care after his coronavirus symptoms worsened, with several reports of the prime minister's condition. The prime minister was moved to intensive care at St Thomas' Hospital in London as his condition worsened. The prime minister was moved to intensive care at St Thomas' Hospital in London as his condition worsened. The prime minister was moved to intensive care at St Thomas' Hospital in London as his condition worsened.

His first thought was: 'I don't want to be the first person to go to intensive care'.

Johnson said: 'I don't want to be the first person to go to intensive care'.

Johnson said: 'I don't want to be the first person to go to intensive care'.

Johnson said: 'I don't want to be the first person to go to intensive care'.

NOW STRICKEN BORIS TAKEN TO INTENSIVE CARE

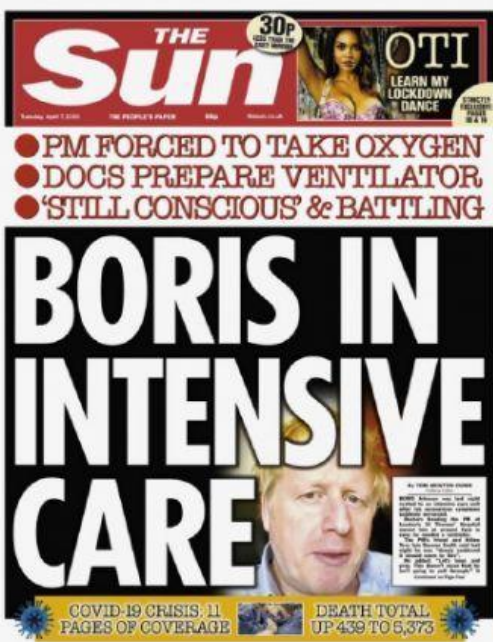

- Shock as No 10 reveal PM's condition worsens
- Raab is crisis stand-in as our Prime Minister
- Agony for Carrie as she's unable to see him

Boris Johnson was moved to intensive care with coronavirus last night after his condition dramatically worsened. The prime minister was moved to intensive care at St Thomas' Hospital in London as his condition worsened.

Transcript of the video :

“I asked Bill a question that probably some of you are thinking of, if you're totally into that world, which I find to be very interesting. So, supposing we hit the body with a tremendous—whether it's ultraviolet or just very powerful light—and I think you said that that hasn't been checked, but you're going to test it. And then I said, supposing you brought the light inside the body, which you can do either through the skin or in some other way, and I think you said you're going to test that too. It sounds interesting...

And then I see the disinfectant, where it knocks it out in a minute. One minute. And is there a way we can do something like that, by injection inside or almost a cleaning. Because you see it gets in the lungs and it does a tremendous number on the lungs. So it would be interesting to check that. So, that, you're going to have to use medical doctors with. But it sounds—it sounds interesting to me.”

11. Create a headline (for a broadsheet **OR a tabloid) about Trump's bleach scandal and send it to me on pronote (espace élèves) before next Sunday (May, 10th)**

You can use a printer and print pictures, you can cut magazines in your house (ask for permission first!!), you can draw..... Do what you want!

If you have any questions, contact me on pronote or Discord.

Good luck and have fun!
