Water Conservation

Direction: Drag the correct picture to match the information about conserving water.

	Reduce indoor water use by choosing water-efficient showers, toilets, taps and appliances.		Wash cars and bikes on the lawn to water grass at the same time.
	Sweep paths and driveways instead of hosing them down.		Reuse water where possible to reduce the amount of fresh drinking water used.
	Choosing plants that are native to your area or need little watering.		Water the garden using a trigger hose or a watering can.
	Only use the washing machine when there is a full load of laundry.		Turn the water off while you are brushing your teeth.
