

Name :

Class :

Date :

$$K = 2 \times \pi \times r$$

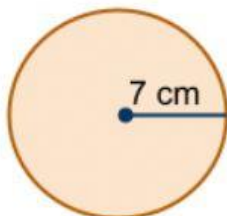

$$L = \pi \times r \times r$$

Keterangan :

$\pi = \frac{22}{7}$ jika jari-jarinya kelipatan 7, atau

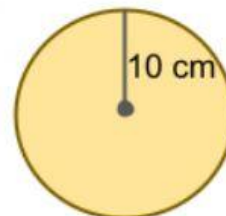

$\pi = 3,14$ jika jari-jarinya bukan kelipatan 7

Hitunglah luas dan keliling masing-masing lingkaran di bawah ini!
(Pada kotak yang disediakan, langsung tulis angkanya tanpa menuliskan rumus)

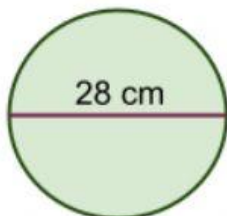

$$K = \quad \times \quad \times \quad = \quad \text{cm}$$

$$L = \quad \times \quad \times \quad = \quad \text{cm}^2$$

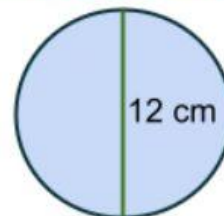

$$K = \quad \times \quad \times \quad = \quad \text{cm}$$

$$L = \quad \times \quad \times \quad = \quad \text{cm}^2$$

$$K = \quad \times \quad \times \quad = \quad \text{cm}$$

$$L = \quad \times \quad \times \quad = \quad \text{cm}^2$$

$$K = \quad \times \quad \times \quad = \quad \text{cm}$$

$$L = \quad \times \quad \times \quad = \quad \text{cm}^2$$

Andi memiliki sebuah jam dinding di kamarnya dengan ukuran diameternya adalah 18 cm. Berapakah keliling dan luas jam tangan tersebut?

$$K = \quad \times \quad \times \quad = \quad \text{cm}$$

$$L = \quad \times \quad \times \quad = \quad \text{cm}^2$$
