

# MAKING CHANGES

*Ada Atkins, 93, explains why she has come to live in town*

Years ago, nobody in my village would lock / *was locking* (1) their front doors. We *used to feel* / *would feel* (2) safe in those days. Last month, I *met* / *was meeting* (3) my neighbour in the street when I *was walking* / *would walk* (4) home from the shops and she *told* / *was telling* (5) me some bad news. Thieves *were breaking* / *used to break* (6) into people's houses while they *were sitting* / *would sit* (7) in their back gardens.

I *realised* / *was realising* (8) that I *wasn't wanting* / *didn't want* (9) to live there any more. So last week I *was moving* / *moved* (10)

to this little flat. I *am not used* / *didn't use* (11) to being in the town yet, but people are more friendly than I *was thinking* / *thought* (12) they might be, and I feel much happier and safer.
