

I KNOW THE NUMBERS

Click on the right number. In some cases the numbers are misspelled. All numbers are complete figures. That is, 123 can't be one two three.

12	twenty	twelve	twenty two
21	twelve one	<u>twenteen one</u>	twenty one
11	eleven	twelve	hundred
61	sixteen one	six one	sixty one
99	nineteen <u>nineteen</u>	ninety	<u>ninety</u> nine
134	one thousand three	one hundred thirty	one hundred thirty four
367	three thousand six	three hundred sixty seven	three hundred seventy six
919	nine hundred ninety	nine hundred nineteen	nine thousand nine

Put the following figures in numbers. Follow the example

Thirty one	31	Sixteen		Seventy seven	
One hundred one		Seven hundred seventeen		Nineteen	
One hundred seventy seven		Forty		Seven hundred seven	
Nine thousand nine hundred nine		Seven thousand one hundred sixteen			
Seven thousand one hundred		Nine thousand sixty			
Nine hundred eleven		<u>Eleven</u> thousand eleven			

Write in numbers, not in letter, the result of the following mathematical operations.
Follow the example:

Example:

Seventy + thirty =

100

Twelve + eleven =

Sixty one + thirty =

One hundred one + two hundred two

Seven hundred + one thousand one

Seven hundred seventeen + seventy

Seven thousand sixty + one hundred sixteen

One thousand one + sixteen

Put the missing number in the square according to the figure in letters. Follow the example:

Example:

1 2 3 one hundred twenty three

1 8 one hundred eighteen

91 9 nine thousand one hundred nine

90 9 nine thousand seventy nine

5 66 five thousand five hundred sixty six

90 6 nine thousand sixteen

3 2 three hundred ninety two

9 60 nine thousand seven hundred sixty

Complete the following sentences (facts) with the true information. Follow the example.

Use letters. Spelling has to be 100% accurate.
