

THE INTERNET

A-Read the text and fill the blanks under the graphics.

Question: What is the main device you use to access the internet?

Internet is everywhere now and people can easily access the internet. it's becoming cheaper and easier to stay connected anywhere. People take their smartphones, tablets anywhere they go.

The devices people use vary from smartphones to desktops. The most popular devices are smartphone, tablet, and laptop. Nearly thirty percent users prefer laptops. Desktops are less popular than laptops. Only twenty percent of the users prefer this device. Half of the users like using tablets while connecting to the internet because it's screen size is larger than smartphone and you can take it anywhere you go. Over forty percent users prefer smartphones.
