Things are looking up!

I want ^{to report} ~~reporting~~ on my progress. I'm very happy that I finally stopped to procrastinate and decided doing something about my fear of flying. It was really getting in the way of my professional and social life. To join this support group was one of the smartest decisions I've ever made.

Last week, I had a business meeting in Texas. Instead of drive all day to get there, I was able to getting on a plane and be there in just a few hours. What a difference!

I remember to work on an important project once, and I actually had to drop out because it required a lot of flying and I just couldn't do it. I was anxious all the time.

My fear was beginning to hurt my friendships, too. I was dating a woman I liked a lot and we were supposed to go on a trip. I canceled at the last minute because it required to take a plane.

Now I'm looking forward to do a lot of traveling. I know fear of flying is a universal problem, but it doesn't have to be mine! It's a big world out there, and I plan on enjoy it.
