READING

This is Alex Moore. She is a young British scientist. She lives and works in a research station in Antarctica.

Her day starts at 8:30. She gets up and immediately puts on her doo suit (a special suit to keep her warm) because it is very cold there. The temperature is usually – 35°C but the coldest day Alex remembers was -53°C! Then she has breakfast-a big breakfast- and after that she walks across the snow to the meteorology building. She works there doing observations. Then, when she finishes work at 2 o'clock she meets other scientists, and they have lunch. Thomas is the cook. He prepares really nutritious meals.

There aren't any cinemas or shopping centres in Antarctica, so all the members of the team get together in the afternoon and they watch videos, play cards and they also organize parties. She also likes making cards for her family.

In the evening Alex is very tired. After dinner she has a shower, reads a book or meets her family and friends on Zoom. She goes to bed at 8 pm.

Alex says that it is a magical place because you can see things that you can't see in any other place. For example, emperor penguins colonies, enormous glaciers or huge sea creatures. She thinks the aurora there is beautiful.

Her dream is to open an Antarctica Museum so she can show people how fantastic Antarctica is.

This is a picture of the station. Isn't it great?

LIVEWORKSHEETS

A. True or False

1. Alex is from Britain. _____
2. She eats a lot for breakfast. _____
3. She never goes to the cinema. _____
4. Alex likes Antarctica very much. _____
5. There is an Antarctica Museum in the Station. _____

5 marks
(1 each)

B. Answer

1. Where does Alex live?

_____

2. Who is Thomas?

_____

3. What time does Alex finish work?

_____

4. What do the members of the team do in the afternoon?

_____

5. Can you see unique animals in Antarctica?

_____

5 marks
(1 each)

LIVEWORKSHEETS
