

How many?

T.Ahlam Al-Sabari

My name is Hamed. Today it's my sister's birthday party. My dad gives me a blue balloon. My brother Saif has four big balloons. We hang all the five balloons on the wall. My mother makes a cake. She puts six candles in the cake. There are three presents for my sister.

1. How many balloons are on the wall?

2. How many candles in the cake?

3. How many presents are there?
