Name_____

Interdisciplinary

Honoring God.

The word "worship" means to respect, honour, and worship a divine being. It is also a special service or ceremony. Human beings were made to worship and praise their creator, God. This is their purpose or reason for being alive. Psalm 95:6 states that we should worship bow down and kneel before the lord our Maker.

We can worship God through song, dance, praise, and playing of musical instruments. Worship can also be done in quiet reverence in prayer.
