Last month I took my family to the doctor's office because everyone was sick. I had a stuffy nose, a bad cough and my chest hurt. My husband Gary had a sore throat. My daughter had a runny nose and a headache. The grandbabies had earaches. We didn't feel well. The doctor checked us for the flu and COVID-19. We didn't have the flu. We didn't have COVID. We were all suffering from allergies.
