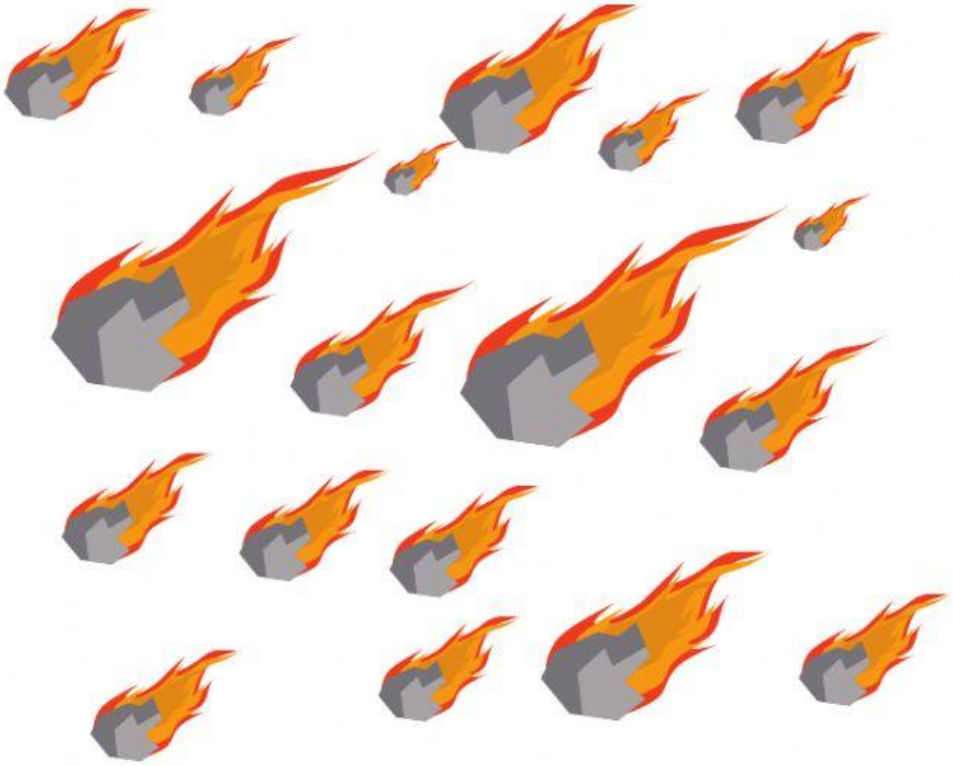
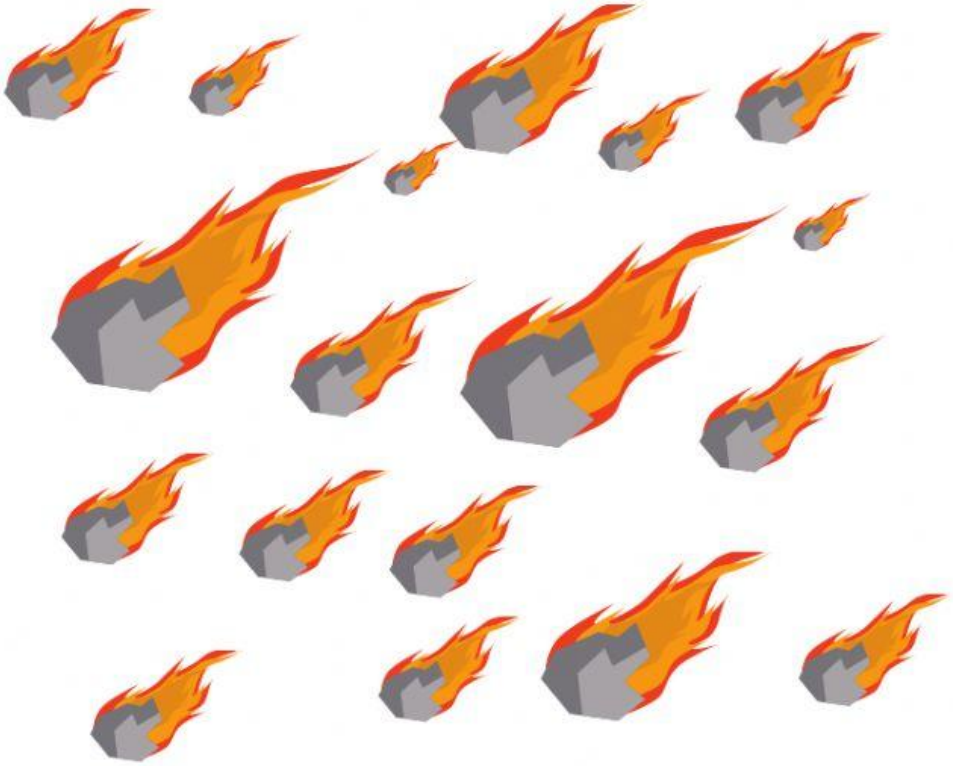
Let's help astronaut Abby and Maestro blast the meteorites with the lasers. Remember all the lasers must shoot exactly the same amount of meteorites. Complete the long division sum and write the number of times each laser must blast on the line below. Good luck!



$$\begin{array}{r} \square\square \\ 3\overline{)\,7\;2} \\ -\;\square\downarrow \\ \square\square \\ -\;\square\square \\ \square\square \end{array}$$

Each laser must blast

_____ meteorites

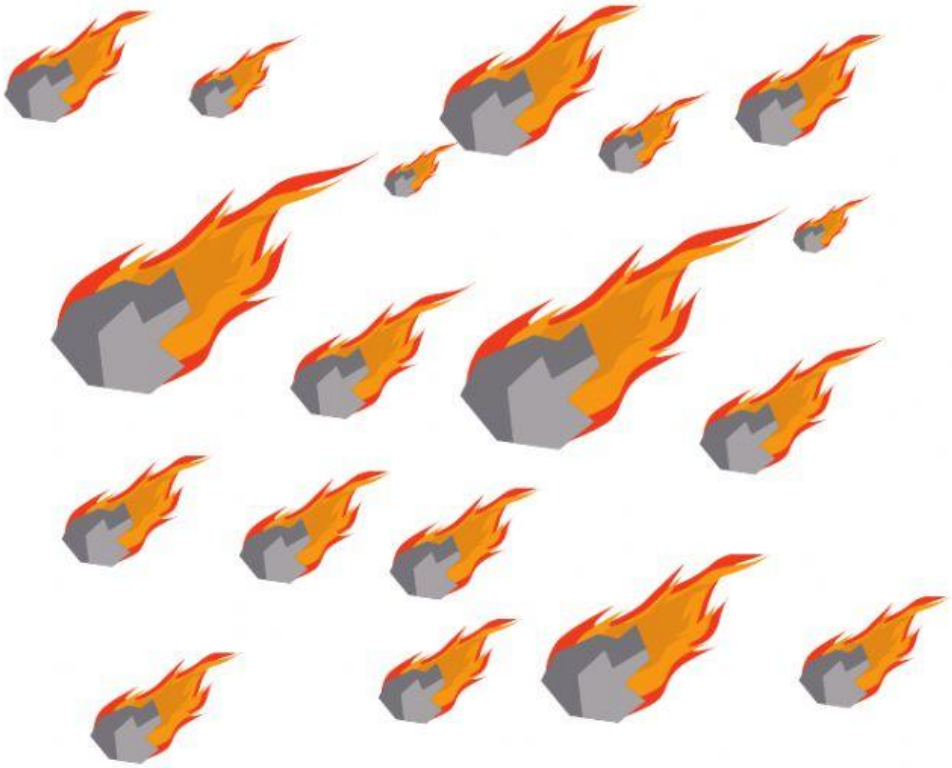


$$\begin{array}{r} \square\square \\ 4\overline{)\,4\;4} \\ -\;\square\downarrow \\ \square\square \\ -\;\square\square \\ \square\square \end{array}$$

Each laser must blast

_____ meteorites

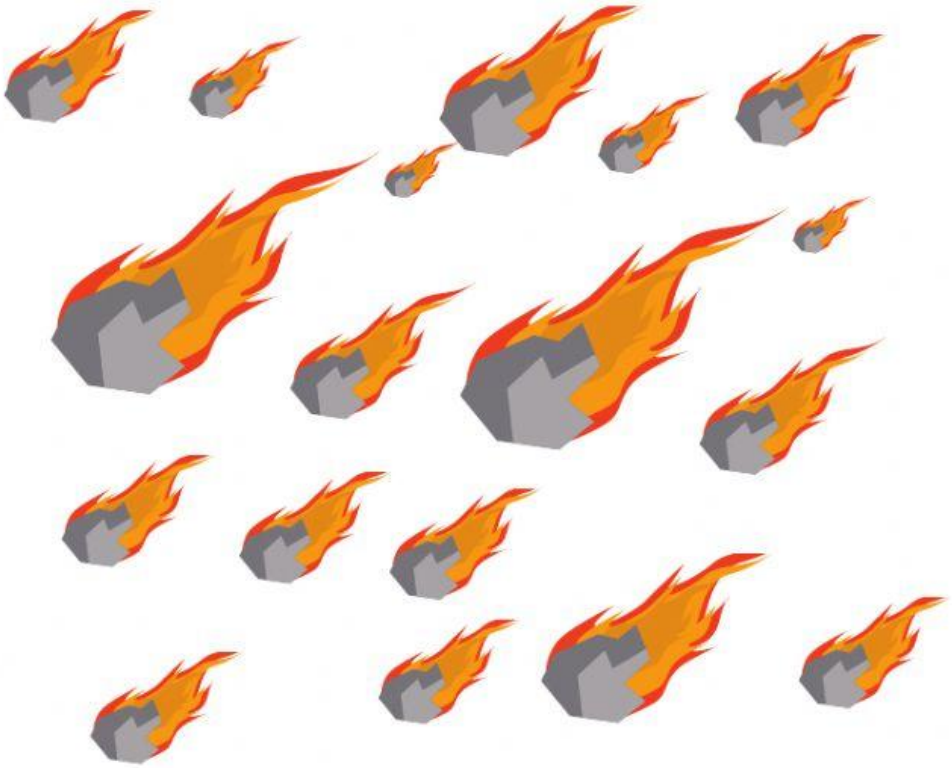
LIVEWORKSHEETS



$$\begin{array}{r} \square\square \\ 5\overline{)\,9\;5} \\ -\;\square\downarrow \\ \square\square \\ -\;\square\square \\ \square\square \end{array}$$

Each laser must blast

_____ meteorites



$$\begin{array}{r} \square\square \\ 3\overline{)\,4\;5} \\ -\;\square\downarrow \\ \square\square \\ -\;\square\square \\ \square\square \end{array}$$

Each laser must blast

_____ meteorites
