LATIHAN ULANGKAJI 1

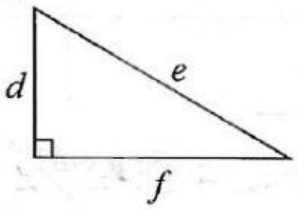

BAB 13: TEOREM PYTHAGORAS

A. Tentukan hipotenus bagi setiap segi tiga bersudut tegak yang berikut.

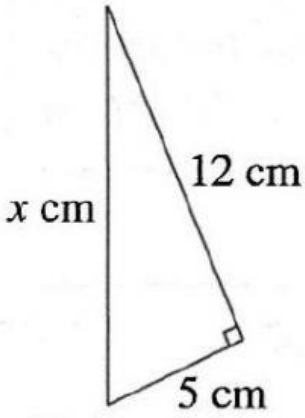

1. 

2. 

3. 

4. 

B. Hitung nilai x bagi setiap segi tiga bersudut tegak yang berikut dengan mengisi nilai pada kotak kosong yang disediakan.

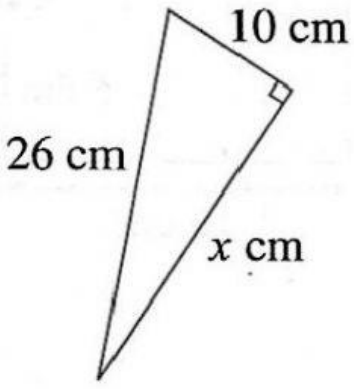

1. 

$x^2 = \square^2 + \square^2$

$x^2 = \square$

$x = \sqrt{\square}$

$x = \square$

2. 

$26^2 = x^2 + \square^2$

$x^2 = 26^2 - \square^2$

$x^2 = \square$

$x = \sqrt{\square}$

$x = \square$
