2. Understand the main points in simple longer texts on a range of familiar topics

## Cultural awareness

### The Australian Outback

## THE OUTBACK SURVIVAL GUIDE

IF YOU'RE PLANNING A TRIP TO THE AUSTRALIAN OUTBACK, FOLLOW THIS ADVICE TO STAY SAFE.

### Fact box

The Outback is a large, mainly desert area of Australia where very few people live. Temperatures can reach 50°C in summer!

#### DO ...

... take enough water with you. You can survive for many days without food, but not without water. Remember the heat makes you very thirsty, so you'll need to drink several litres of water a day.

... wear a hat and sun cream to avoid sunburn. The sun is one of the biggest dangers in Australia. It is at its hottest between 1pm and 5pm, so only hike in the mornings and evenings.

... plan your route carefully. Make sure you have a detailed, up-to-date map which shows places where you can find water. You should also have a GPS receiver to prevent getting lost.

... tell someone where you are going, what route you plan to take and when you expect to arrive.

#### Word check

survive hike up-to-date GPS poisonous remote muddy

#### DON'T ...

... worry too much about snakes. There are many different kinds of poisonous snake in Australia, but only two or three people a year are killed by snakebites. If you leave the snakes alone, they won't hurt you!

... rely on your mobile phone if you get lost. In many remote areas, there will be no signal, so you won't be able to use it.

... swim in deep, muddy water or where you see crocodile warning signs. Crocodiles are dangerous animals and attacks often happen in Australia!

... leave your vehicle if you break down in the middle of nowhere. If a plane is searching for you, it's much easier to spot a car than a person from the air.

Identify the meaning of these words in your own language:

- survive
- hike
- up-to-date
- GPS
- poisonous
- remote
- muddy

3 - Read the text again and choose the correct answers.

4 - Think of a remote area of your country. What advice would you give to visitors? Think about ...

- clothes
- equipment
- transport
- wild animals

Example:

What to prepare for lakeside camping?

First, you should bring some clean and fast-dry attire. You should not bring thick and heavy jeans or shirts.

Next, you should prepare some proper camping equipment such as a suitable tent, a torchlight and mobile phone for communication. Don't forget to bring enough supply of food.

You should also think of your transportation to the destination. You should decide whether to use off road four-wheel drive or you prefer on foot!

For your safety, you should try to avoid wild animals encounter. You should not use any fragrance and do not be loud as these will attract wild animals!
